

Employee Handbook

The Nexora Technologies Employee Handbook defines workplace policies, expectations, and operational guidelines for all employees. It applies to full-time employees, interns, contractors, and visiting researchers.

Working Hours & Attendance

Standard working hours are from 9:00 AM to 6:00 PM, Monday through Friday. Employees are expected to complete an 8-hour productive work cycle excluding breaks. A flexible buffer of 1 hour is permitted depending on team requirements. Employees working in client-facing roles may be required to adjust schedules based on client time zones.

Attendance is tracked through an internal biometric and digital login system. Late arrivals beyond 10:30 AM are marked as half-day unless pre-approved by a reporting manager.

Remote Work Policy

Employees are allowed to work remotely up to 2 days per week under normal policy conditions. However, teams involved in critical infrastructure, security operations, or hardware deployments are required to be physically present at least 4 days per week.

Remote work requests beyond the permitted limit require approval from both the team manager and HR department. Employees on probation are generally not eligible for remote work unless explicitly approved.

Leave Policy

Nexora provides a structured leave system:

- Annual Leave: 20 days per year
- Sick Leave: 10 days per year
- Casual Leave: 5 days per year
- Bereavement Leave: 5 days
- Maternity Leave: 26 weeks (paid)
- Paternity Leave: 15 days (paid)

Unused annual leave may be carried forward up to 30 days, but cannot be encashed except during resignation or termination settlements.

Performance Evaluation

Performance reviews are conducted biannually in June and December. Evaluation metrics include:

- Task completion efficiency
- Technical contribution
- Team collaboration
- Innovation impact
- Client feedback (if applicable)

Employees rated consistently low across two cycles may be placed under Performance Improvement Plans (PIP).
